

PROIZVOD: AW27876

8-Ch Ethernet Relejni Modul (B)

NIŽE U ORIGINALU

8-Ch Ethernet Relejni Modul (B) sa digitalnim ulazima (3 D/I); I Relejnim izlazima 8 D/O, dodatno Modbus RTU/Modbus TCP, PoE Port, izolovan i sa zaštitnim kolima

Features At A Glance

This product is an industrial 8-ch relay module controlled via Ethernet port, with 8-ch digital input, adopts Modbus RTU/Modbus TCP protocols, supports PoE power supply, also comes with an ABS rail-mount case.

The Modbus POE ETH Relay (B) is very easy to use. Due to its fast communication, stability, reliability, and safety, it is an ideal choice for industrial control equipments and/or applications with high communication requirements.

office@aspekt.rs

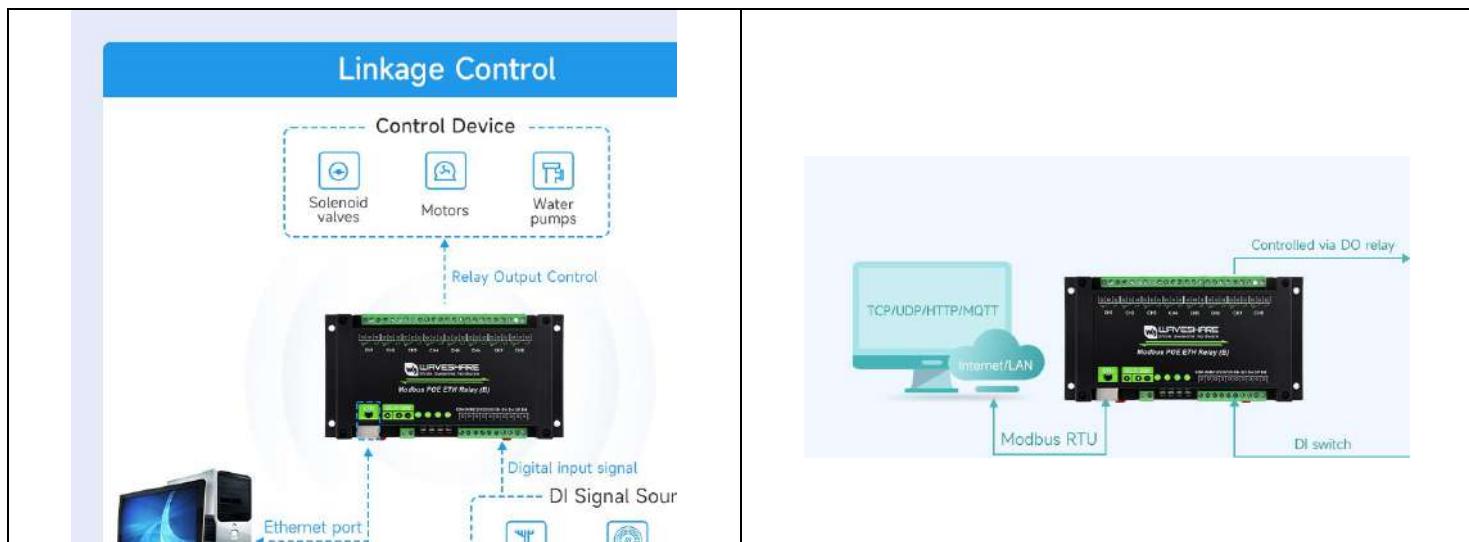

• Supports DC 7~36V wide range power input and PoE power supply

• Supports relay control through MQTT protocol, comes with Alibaba Cloud MQTT application demo

- Onboard Optocoupler isolation, prevent the relay from being interfered by high-voltage circuit
- Adopts dedicated relay driver chip, with built-in flyback diode protection, for stronger and more stable driving ability
- Supports passive and active digital input, with bi-directional optocoupler isolation, built in debouncing algorithm. The relay supports digital input linkage control or toggle control
- Reverse-proof circuit, prevent the circuit from being damaged accidentally by incorrect connection
- High quality relay, contact rating: $\leq 10A$ 250VAC/30VDC
- Rail-mounted ABS plastic enclosure, easy to install, safe to use
- 4 LEDs and Network indicators for indicating the MCU status and signal transceiving status

Primary Function

Supports Reading Digital Input By Sending Modbus RTU Protocol Commands Via Ethernet For Relay Output Control

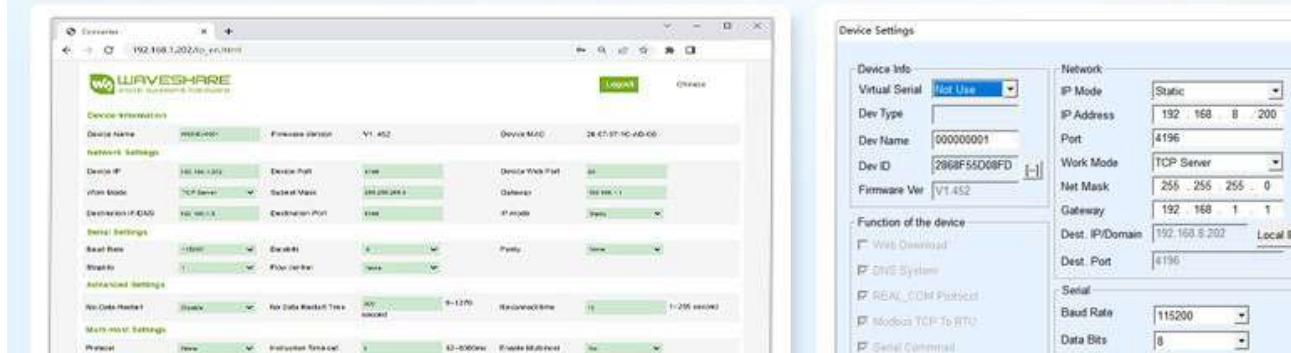

Supports Multiple Communication Modes, Adopts Modbus Protocol

Supports TCP Server / TCP Client / UDP Mode / UDP Multicast / HTTP / MQTT

Supports Modbus RTU Protocol/Modbus TCP Protocol

Multi Configuration Methods

Supports Software And Web Browser Configuration, Obtaining Dynamic IP Via DHCP, Connecting To Domain Name Server Via DNS Protocol

Multi Power Supply Options, Wide Range Power Input

DC Power Port: Directly Uses A Power Plug For Power Supply; Screw Terminal: DC 7~36V Wide Range Power Input; PoE Port: IEEE 802.3af PoE Compliant

* The external power supply adapter is NOT included by default, it is recommended to purchase [12V power supply](#) if you need it.

Digital Input

Supports Passive (Dry Contact) And Active (Wet Contact) Digital Input, With Bi-Directional Optocoupler Isolation

Interfaces & Indicators

With Multiple LED Indicators, Easy To Monitor the Operating Status

RUN	Ethernet port indicator, blinking when Ethernet port normally working
STA	MCU indicator, blinking when the MCU normally working
TXD	TX indicator, lights up when sending data
RXD	RX indicator, lights up when receiving data
ETHERNET PORT GREEN INDICATOR	Lights up when the connection is established
ETHERNET PORT YELLOW INDICATOR	Data activity indicator, blinking when transmitting data

Multiple Modes for Various Automation Scenarios

Supports Multiple Relay Control Modes, Each Channel Supports Independent Control Mode Setting

Normal Mode

Command direct control

Sending commands

Power ON/OFF contr

Linkage Control

The output status follows the digital input status

Digital input monitoring

Power ON/OFF control

Flash ON / Flash OFF

Flash on: sending a command to turn on the output for a while and then turn it off automatically
Flash off: sending a command to turn off the output for a while and then turn it on automatically

Setting time interval by passing argument to the command

Toggle Mode

When inputs a pulse, the output status will toggle

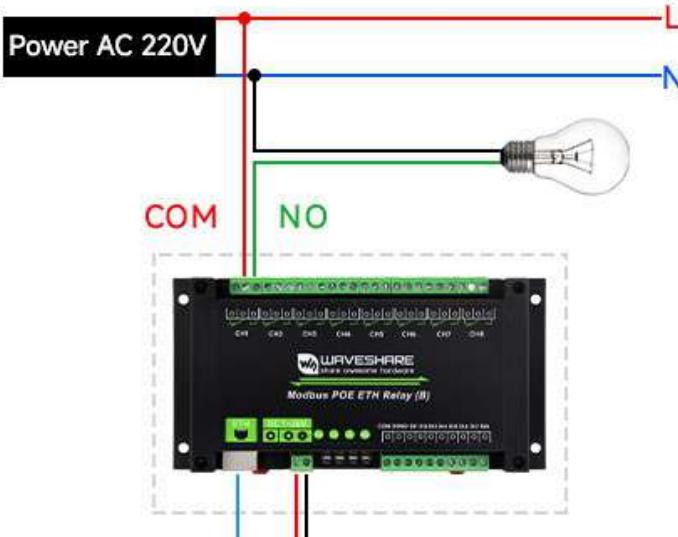

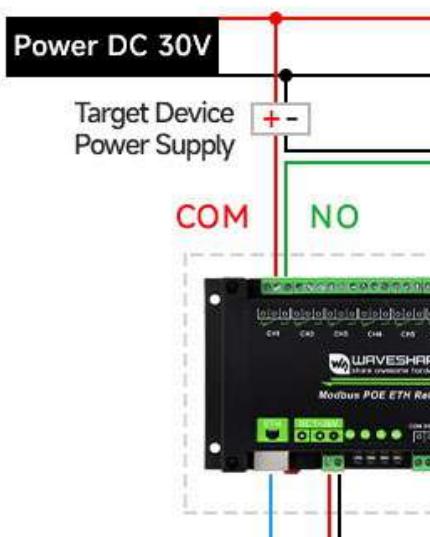

Pulse input monitoring

Power ON/OFF control

Relay Connection

Contact Rating Of The Onboard Relay Up To 10A 250VAC/30VDC
Directly Controlling 220VAC Home Appliances, Or Devices Below 30VDC

AC 220V Device Connection**DC 30V Device Connection****Applications****Industrial Control**

Valve control, pump station control, unattended industrial control system

**Smart Home**

Controlling appliances like television, access control, pump, heater, etc.
