Card/Wristband Collector Pillar DASSP6001D

Card collector device is the hardware to swallow cards as a stand-alone unit. The body is made of brushed stainless steel which is robust, rigid, anti-rust and durable, and on top is with black rubber covering. It's with LED indicator on top (red × means no entry; green → means entry). Card container of the card box is more than 500 items. The system always integrates with turnstiles, parking system or other gates to use together. When the machine swallows the card, the connective gates will open automatically.

Features of Card Collector Pillar

Strong reliability, fast responds and powerful expanded long-using performance. The whole system runs smoothly, low noise, no mechanical impact. The device is with great flexibility for variant kind of cards, like ID, IC card. The whole product is in full industrialized design, produced for high/low temperature, and dusty hazardous environment. Easy to install and maintain. 3-year warranty support

Product Parameters

Model No.	DASSP6001D
Framework Material	304 Full Stainless Steel
Dimension	220 * 150 * 1000mm
Weight	20kg/pcs
Power Supply	AC220V/110V, 50/60Hz
Operation Voltage	24V DC
Power Consumption	20W
Operation Temperature	-15 °C - 60 °C
Operation Humidity	0 ~ 95% (No freeze)
Working Environment	Indoor
LED Indicator	Yes

Easy Installing, NO Need Any Special Electrician Skills

Fix on ground, connect to power supply, it will work
